CHIT CHAT

MARY FOUND A ONE LINER IN ONE OF THE CLUB PAPERS THAT SAID SOME PEOPLE TALK SO FAST, THEY SOMETHING THEY HAVEN'T THOUGHT OF YET. MY TYPING OF THIS PORTION OF THE NEWSLETTER IS PRETTY MUCH LIKE THAT, NOT ONLY THAT BUT I NEVER LEARNED TO TYPE. YOU NOTICE THAT FIRST PAGE I HADN'T EVEN DISCOVERED THE TABS OR HOW TO KEEP COLUMNS STRAIGHT BUT BOY TAKE A LOOK AT THAT REPEATER LISTING!!!!!! THAT REPEATER LISTING BY THE WAY IS NOT PERFECT BUT AS CLOSE AS WE CAN COME AT THE MOMENT. ALSO THE LISTING OF OFFICERS AND BOARD MEMBERS I HOPE IS ACCURATE AND NOT LEAVING ANYONE OUT. WATCH FOR ALL THE CORRECTIONS NEXT NEWSLETTER.

SOCIALS

THE LAST SOCIAL WAS FIELD DAY PICNIC AND A GOOD TIME WAS HAD BY ALL, WITH ABOUT 110 PEOPLE INCLUDING KIDS ENJOYING THE COLONELS FINEST!!! THE NEXT SOCIAL WILL PROBABLY BE A PICNIC ALSO AND WE WILL PROBABLY CHANGE TO A WEDNESDAY CAUSE PEOPLE EVAPORATE ON WEEK ENDS. WATCH FOR OR LISTEN FOR WHEN AND WHERE.

CLUB PHONE.

WE ARE GETTING THE CLUB RECORDING THINGEE FIXED SO THE CLUB PHONE DOES NOT ANSWER. CALL 349-4891 LUCY FOR INFO, NOT THAT I WILL HAVE IT BUT I MIGHT BE ABLE TO TELL YOU WHO DOES.

FIELD DAY

I AM NOT GOING TO ATTEMPT TO GIVE CREDITS TO ALL THAT DESERVE CAUSE I WOULD MISS SOME. THE CHAIRMAN DID A FANTASTIC JOB AND THEY WERE KL7Q, KL7IT1, DON BAIN WHOSE 3 CALL ESCAPES ME. I ENJOYED THE POTTYS PROVIDED BY KL7AP. MANY OTHERS DESERVE CREDIT LIKE I SAID, AT LEAST 75 LICENSED AMATEURS WERE THERE AT ONE TIME OR ANOTHER, EVEN THROUGH THE NIGHT THERE WAS NO LACK OF OPERATORS. OUR CONTACTS VERY UNOFFICIALLY ARE 20 PHONE 147, 20 CW 101, 40 PHONE 38, 80 PHONE 70 15 PHONE 88, 15 CW 1, 6 5, 2 FM 28 totaling 478 contacts for I DON'T KNOW HOW MANY POINTS. THERE WILL BE A FULL REPORT NEXT NEWSLETTER.

JULY MEETING

THE COAST GUARD IS COMING TO THE JULY MEETING TO TELL US ABOUT THEIR OPERATIONS. AND ALSO THERE WILL BE VARIOUS AND SUNDRY HAM EQUIPMENT TO LOOK AT AND DROOL OVER SUCH AS, SLOW SCAN, FT7B, ICOM 201, SWAN "VRS", TENTEC OMNI, TS 120 TS 180S, ASSORTED 2 MTR HANDHELDS.

MORE ABOUT SOCIALS

I HAVE SOME BAD NEWS AND SOME GOOD NEWS. FIRST THE BAD.. KL7EL WAS GOING TO TRY AND HAVE SOME OF US SAILING BUT FOR A NUMBER OF REASONS THE JOINT VENTURE WITH THE SAILING CLUB CANNOT BE. NOW THE GOOD NEWS, WE HAVE BEEN INVITED TO HAVE AN OUTING AT KL7BJD'S QTH AT BIG LAKE. IN THE PAST IT HAS BEEN SOMETHING OF A TRADITION TO HAVE A ROAST PIG AT THIS AFFAIR. THE TENTATIVE DATE IS THE WEEK END BEFORE LABOR DAY AND WE NEED TO KNOW IF YOU ARE WILLING TO CHIP IN MONEY TO GET THE PIG OR PIGS. PLEASE CALL LUCY KL7LH OR DAVE KL7HAB.

CHIT CHAT (SECOND PAGE)

THE NEXT NEWSLETTER , I HOPE TO HAVE SOME GOOD PIX, WELL BLACK AND WHITE DRAWINGS ARE WHAT THE STENCIL THINGEE LIKES THIS ONE, THAT IS THIS NEWSLETTER HAS MY SCRATCHINGS TO FILL SPACE!!!!

ROSTER

THE ALPHABETIZED BY CALL PART OF THE ROSTER IS PRINTED FROM THE COMPUTER PRINTOUT. MANY THANKS TO BOB KL7HIU FOR THE ROSTER AND FOR THE ADDRESS LABELS. AND OF COURSE MANY THANKS ALSO TO KL7FKO FOR THE TIME HE SPENT. BOB IS NOW SPENDING A HECK OF A LOT OF TIME PARTLY CAUSE I KEEP GOOFING HIM UP BY PRESENTING HIM WITH DIFFERENT SIZE LABELS EACH TIME. MAYBE I WILL LEARN ONE OF THESE DAYS.

DX

NOTE NEW DX ASSN NET TIME AND FREQ. THE NEXT BIG DX CONTEST IS JULY 14 CALL RON AL7J 349-8651 FOR INFO. THE DX ASSN WILL BE PUTTING OUT A NEWS LETTER AND PROMISE A COPY TO USE IN THIS NEWSLETTER.

AFFILIATION

THE AARC IS AFFILIATED WITH THE UNIVERSITY OF ALASKA AND WITH THE ANCHORAGE COMMUNITY COLLEGE.

BOYS CLUB

WE HAVE BEEN ASKED TO HELP KEEP THE BOYS OFF THE STREETS BY PROVIDING CLASSES AND HELP IN SETTING UP A STATION TO GET THE BOYS INTERESTED IN HAM RADIO. DAVE KL7HAB WILL BE GETTING IN TOUCH WITH YOU TO HELP. PLEASE GIVE THE TIME YOU CAN, CALL DAVE 333-4211 IF YOU CAN HELP.

HAM SHACK VISITS

THERE IS STILL HOPE FOR THIS ACTIVITY AND FOUR HAMS HAVE SAID THEY WOULD NOT MIND BEING VISITED WHEN THIS ACTIVITY IS SET UP. PLEASE IF YOU ARE INTERESTED IN EITHER VISITING OR BEING VISITED, LET DAVE KL7HAB KNOW.

QST
OFFICIAL ORGAN

U.S. OPERATION IN CANADA

FCC licensees holding Conditional or higher class licenses may secure permission to operate in Canada. The licensing authority there is the Department of Communication (DOC for short). DOC form 16-52 should be filed with:

Regional Superintendent
Telecommunications Regulation
Dept. of Communications

nearest to the area of proposed operation. Regional Offices are located at Vancouver, B.C., Winnipeg, Man., Toronto, Ont., Montreal, P.Q., and Moncton, N.B., CANADA.

Where possible, applicants should file 60 days in advance, but DOC gives excellent service in special cases.

A U.S. amateur who is operating in Canada is bound by Canadian, not FCC, regulations. He may use any band and mode available to a Canadian amateur licensee, including phone on portions of the bands not available to FCC licensees.

Unless otherwise noted on the following chart (over), the maximum power input to the final stage of an amateur transmitter permitted in Canada is 1000 watts.

1) Phone privileges are restricted to holders of Advanced Amateur Radio Operator Certificates, and of Commercial Certificates.

2) Phone privileges are restricted as in footnote 1), and to holders of Amateur Radio Operator Certificates, whose certificates have been endorsed for operation on phone in these bands.

3) Amplitude modulation (A2, A3, A4) shall not exceed ± 3 kHz (6A3).

4) Frequency modulation (F2, F3, F4) shall not produce a carrier deviation exceeding ± 3 kHz, (6F3) except that in the 52-54 MHz and 146-148 MHz bands and higher the carrier deviation shall not exceed ± 15 kHz (30F3).

5) Slow Scan television (A5), permitted by special authorization, shall not exceed a bandwidth greater than that occupied by a normal single sideband voice transmission.

6) Television (A5), permitted by special authorization, shall employ a system of standard interface and scanning with a bandwidth of not more than 4 MHz.

Operation in frequency band 1.800-2.000 MHz shall be limited to the areas as indicated in the following table and shall be limited to the indicated maximum dc power input to the anode of the final radio frequency stage of the transmitter during day and night hours respectively; for the purpose of this table "day" means the hours between sunrise and sunset, and "night" means the hours between sunset and sunrise. A1, A3 and I-3 emission are permitted.

**MUTUAL RECOGNITION OF CERTAIN MOBILE AND AMATEUR RADIO LICENSES
ISSUED BY THE UNITED STATES OR CANADA**

Under the terms of a treaty with Canada which became effective May 15, 1952, certain mobile and amateur radio stations licensed by that government or the United States may be authorized to operate across the border in each other's territory.

Those licensees desiring to avail themselves of this privilege are required to apply for and receive a permit in advance of operations, except in the case of aircraft. A form for the purpose has been provided by both countries. Canadian licensees should send the application (FCC Form 410) to the Secretary, Federal Communications Commission, Washington, D. C. 20554. United States licensees should mail the Canadian application form to the Regional Superintendent, Telecommunications Regulation, of the Department who is located nearest the port of entry at which the applicant will enter Canada as set forth in the Schedule on the back of this bulletin. Application should be made at least thirty days prior to the date of the proposed operation. The application forms of both countries may be obtained at any of the offices indicated.

Under the terms of the treaty, radio stations of one country when operated within the borders of the other country are subject to the radio regulations of the country in which the operation takes place.

With respect to radio equipment installed on civil aircraft of either country and properly licensed by the country of registry for the primary purpose of navigation and safe operation of the aircraft, a US citizen holding a pilot license and, in addition, a radio operator license issued by the United States of America, may operate such radio equipment on an aircraft registered in Canada and operated in either country, and a Canadian citizen holding a pilot license and, in addition, a radio operator certificate issued by Canada, may operate such radio equipment on an aircraft registered in the USA and operated in either country.

Mobile radio stations properly licensed in one country are permitted to be operated in the territory of the other country after the operator receives a permit as noted above, subject to local operating conditions and regulations, as follows:

- (a) Mobile radio units installed in vehicles employed in
 - (1) Police, fire and other public safety services,
 - (2) the operation or maintenance of a pipeline or other industrial facility extending across the border, and
 - (3) the public carriage of persons or goods between the two countries.
- (b) Mobile radio units which are limited to communication through the common carrier radiocommunication companies or agencies.

Amateurs holding currently valid licenses may operate their amateur stations in the territory of the other country under the following conditions:

- (a) The visiting amateur will identify his station by:
 - (1) Radiotelegraph operation - The amateur call sign issued to him by the licensing country followed by a slant (/) sign and the amateur call sign prefix and call area number of the country he is visiting.
 - (2) Radiotelephone operation - The amateur call sign in English issued to him by the licensing country followed by the words "fixed", "portable" or "mobile", as appropriate, and the amateur call sign prefix and call area number of the country he is visiting.
- (b) Each amateur station shall indicate at least once during each contact with another station its geographical location as nearly as possible by city and state or city and province.

(over)

BANCROFT, ONTARIO, CANADA AMATEUR XJ3TBC RADIO SPECIAL EVENT STATION

In 1979 Bancroft, Ontario, celebrates its Centennial and the Bancroft Amateur Radio Club will commemorate the occasion and put the village on the map for Ham Radio.

Throughout "Homecoming Week" of August 11th to 18th the club will operate a Special Event Station at Centennial Headquarters over the twenty-four hour period each day using the commemorative call sign "XJ3TBC".

C.W. and phone operation on all H.F. bands except 160 meters. Listen at 20.1 MHz up from bottom of each band and phone on 14.3, 21.2, and 28.4 MHz. VHF on 146.2 simplex and repeater VE3TBC at 147.24-84.

Special QSL cards will be issued for your log information.

Certificate award available for working XJ3TBC on any three different bands. Show us your log information plus 2 in coupons or one dollar. DX stations qualify by working two bands.

Each day an appropriate prize will be given to the lucky Canadian who works XJ3TBC closest to a preselected time.

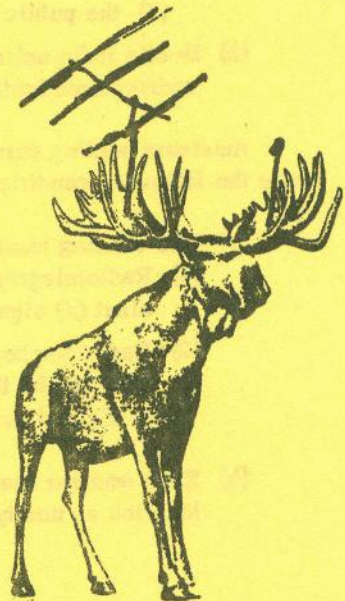

Visitors to the station are most welcome and fellow amateurs will be invited to operate if they choose. Those who do operate will be given a commemorative memento.

Looking forward to your participation either as a visitor or by working "XJ3TBC".

"QSY 90/30"

At approximately 12 noon on June 9th, the Civil Defense Repeater was turned on from its permanent home at Site Summit. This machine is owned by the Municipality of Anchorage, Divil Defense Office, and is maintained by the Anchorage Amateur Radio Club. The machine was installed as a RACES repeater, but is open for use by all Amateurs except during emergencies.

Some data which might be of interest to you is:

MAKE: Motorola

MODEL: Micor

POWER: 100 watts ERP

SENSITIVITY: $\frac{1}{2}$ microvolt (estimated)

ANTENNA: Omni-directional "Station Master"

FREQUENCY: 147.900 MHz in, 147.300 MHz out.

CALL: WR7ACT (issued to KL7HFM)

LOCATION: Motor pool building at Site Summit Army site atop Mount Gordon Lyon due east and 4040' above Anchorage

COVERAGE: North of Willow to south of Soldotna, west of Chugach Foothills to west side of Cook Inlet. Coverage into Matanuska Valley and Turnagain arm is shadowed by mountains.

QUIET HOURS: none except for closed period for Anchorage Civil Preparedness Net which meets weekly at 8:00 PM local time for approximately $\frac{1}{2}$ hour.

AUTO PATCH: none. None is anticipated due to lack of phone circuits at the site.

PHONE PATCHES: Patches via suitably equipped base stations are fine where commercial phones are not readily available. If all you want is to save 50¢, please refrain. Support your local utility.

EMERGENCY POWER: none at present but that will have to be addressed. Generation is available but not automatic. Battery for 8 hours being considered.

In the future, we will attempt to arrange for a scheme whereby stations can monitor 24-hours a day with tone coded squelch (touch tone). This will permit any station to get a response in an emergency 24-hours a day.

The machine should not be abused, as we undoubtedly will be monitored by many non-hams. This is public funded equipment and our conduct should reflect an appreciation for what we have. How do you do that? Some things which will help give hams a good image are:

Using good operating procedures. See ARRL "Operating an Amateur Radio Station".

Don't kerchunk a repeater repeatedly and fail to identify yourself. Pause during your conversation to allow breakers to get in. There is a two-second squelch tail; let the machine drop frequently and you'll know you have paused long enough).

Listen before you transmit to be sure the machine is clear.

If you call a station and get no response, then clear so the next station can call knowing you're finished.

If you can work your station on simplex with equal or better results, then QSY so you don't tie up the machine.

Don't use the repeater output frequency as a simplex frequency. (There are 800 channels on this band, man; enough for each of us to have our own; surely you don't need to compete with a repeater.)

The best way to show your support is to register as a member of the Anchorage RACES Organization. The membership roster for this group is tangible proof to civil defense officials that amateurs exist who are interested in providing communications during emergencies. The group does not have monthly meetings to attend, dues to pay, or formal net requirements. All we ask is an occasional check-in to remain current and that you keep your equipment operational on the repeater and 52 simplex. This seems like a pretty fair trade for such a fine repeater.

A copy of the RACES registration form is reproduced below for those who are not yet members. Please take a moment to fill it out. Either mail directly to KL7K or bring to a club meeting and deliver personally. Your support will be appreciated.

If you have comments or suggestions, pass them along to Dave Cloyd, KL7M, VHF Committee Chairman; or myself. We welcome your input.

Dave Olson, Anchorage RACES Officer for AARC

It bugs me!

Bob Rouleau, VE2PY

What bugs me?

This bugs me. Guys who say, "I am destined; — desolated, decimated, debilitated, okay, but "destinated," nooo way!

Secondly, those who seek to further the art of voice communication by using abbreviations such as "affirmative" when they mean "yes" — any dummy knows "affirmative" is a short form of "yes." This is true, but the rest of us who could be considered reasonably intelligent realize that "affirmative" having four syllables is exactly four times longer than plain old "yes." Likewise for those who say "negative" or even worse, "negatory" when they mean "no."

How about the editorial "we." This one drives me up the wall. Never fails whenever I have a passenger in the car who expresses some interest in Amateur Radio, I come across one of those guys who call themelves "we." "We are playing solitaire," or "we are here all alone in the car."

"Dear wayer of "we," message number one informal from VE2PY: "We" is okay under many circumstances, such as I have to go we we, or weese our team just scored another goal, or God forbid that anyone be able to tolerate your presence, "we are here," meaning that there are at least two of you, if not more. End of message.

Next, stand by for a barrage laid on the subject of "fine business." Now it is okay to say that General Motors runs a fine business, but to say, as is so often heard, "find business on breaking your leg falling from your roof and fine business on having your car stolen" is absolute drivel. In this context, "fine business" is nothing more than meaningless noise. And, if you want to make meaningless noises there is another bend made just for you. 10-4 good buddy?

If you really think about it, all "fine business" means is that you listened to whatever the other guy said, and you need a preamble which sounds better than, "I was paying attention this time." Well, I trust you; I believe you were listening to what I had to say and need no additional assurances of your ability to remember, so, please spare me the "fine business" on everything you just said!

Note "fine business" used this way can also be interpreted to mean, "I wasn't really listening to what you said, But I haven't got the guts to tell you, so I'll just say "fine business" and change the subject.

Lastly, my tirade coming to an end for now, those of you who use the forms just described probably don't know how dumb you sound, so maybe reading what you say will help you understand. Typical QSO: Fine business old man (who is old? he is talking to a kid) on falling off the roof while tuning the old antenna (old? it's brand new) and fine business on never being able to walk again!!!!, etc.

This list designates the part numbers to be used with each type of equipment and model. These part numbers are made in the HC-25/U holders at $\pm .002\%$ Tolerance *Non Over Use Only*. To order special crystals not on this list. Specify (formula to obtain the crystal frequency from the operating frequency), (series resonance or load capacity, if parallel resonance), or send us a good working crystal.

If you have any changes to the roster information, please call and give it to Mary Moore KL7P as she is the new membership chairman.

ALASKAN DX CERTIFICATE

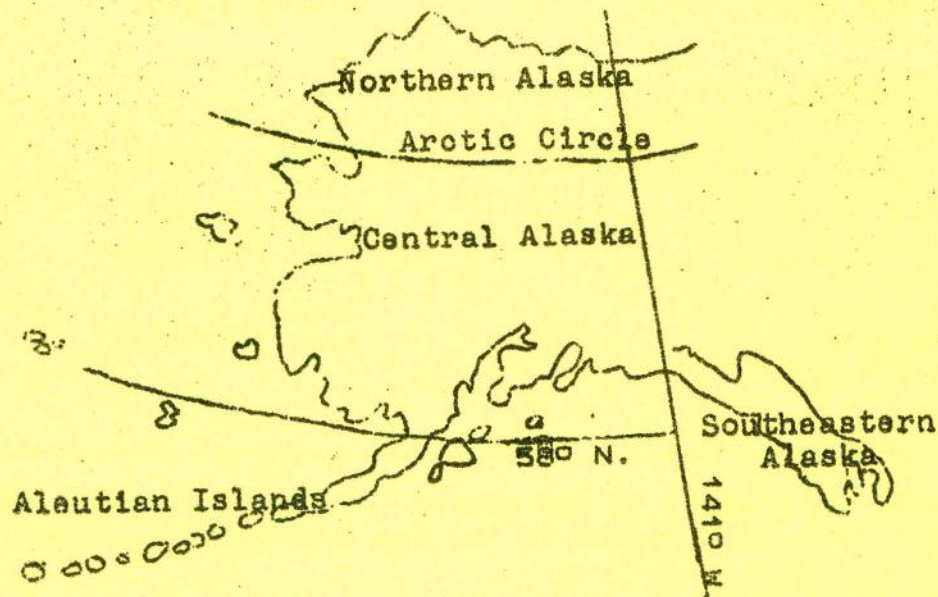

The "Alaskan DX Certificate" is offered by the Anchorage Amateur Radio Club, KL7AA, P. O. Box 1987, Anchorage, Alaska 99510 for contacts made since January 1, 1955 with ten Alaskan amateurs. Of these ten confirmed QSO's there must be at least one from each of the following geographical areas of Alaska:

1. Southeastern (that part east of 141° West longitude).
2. Northern (that part above the Arctic Circle).
3. Aleutian Islands, including Kodiak Island (but not Afognak Island) and the Alaskan Peninsula south of 58° North latitude, and including the Fribilofs.
4. Central Alaska, the remainder of Alaska.

Of these ten QSO's four must be with members of the Anchorage Amateur Radio Club. Phone or CW, or any combination of both may be used and any amateur band is acceptable.

Send QSL's to the above address, including postage for return, in U. S. money or stamps or an appropriate number of IRC's. ADXC is offered to all amateurs of the world with the exception of Alaskan amateurs.

Below is a map setting out the boundaries:
